Designer Caskets

DESIGNER

OUTSIDE THE BOX CASKETS

Embrace the beauty of Nature with our lid designs. Perfect for those who cherish the natural wonders around us, our Nature lids capture the essence of our country's beauty.

These unique designs are printed directly onto the casket lid using only 100% eco-friendly UV inks, reflecting our commitment to minimal environmental impact.

Select from 8 nature-inspired designs, featuring the scenic coastline, enchanting forest ferns, captivating native birds, vibrant sunflowers, and the iconic New Zealand pohutukawa blossoms.

THEMES OF LIFE

Custom

Personalise your farewell with a customised coffin

Supply your favourite photos or images.

Discuss a customised theme and layout.

Supply JPEG or PNG images with minimum 1920px by 1920px & 300dpi.

Or ask us about an extensive range of designs.

Contact your state Sales Executive to discuss timeframe requirements.

Refer to page 4 for the Themes of Life™ Design Guide.

Insert your images here

Themes of Life Design Guide

This template is a guide when selecting images or submitting customised images for Themes of Life™ design.

Important!

When creating a customised Themes of Life™ design, consider if your coffin will have 4 or 6 handles and the handle position.

Design, resolution, and file-type are critical in producing the best quality wrap.

We cannot accept images that have a copyright or trademark associated with them.

File Type:

For the best results raw (i.e. directly from your phone camera roll) or Portable Network Graphics (.PNG) are better than J-PEG images and will make it easier for our design team to create the design.

Resolution:

Supply JPEG or PNG images with minimum 1920px by 1920px & 300dpi.

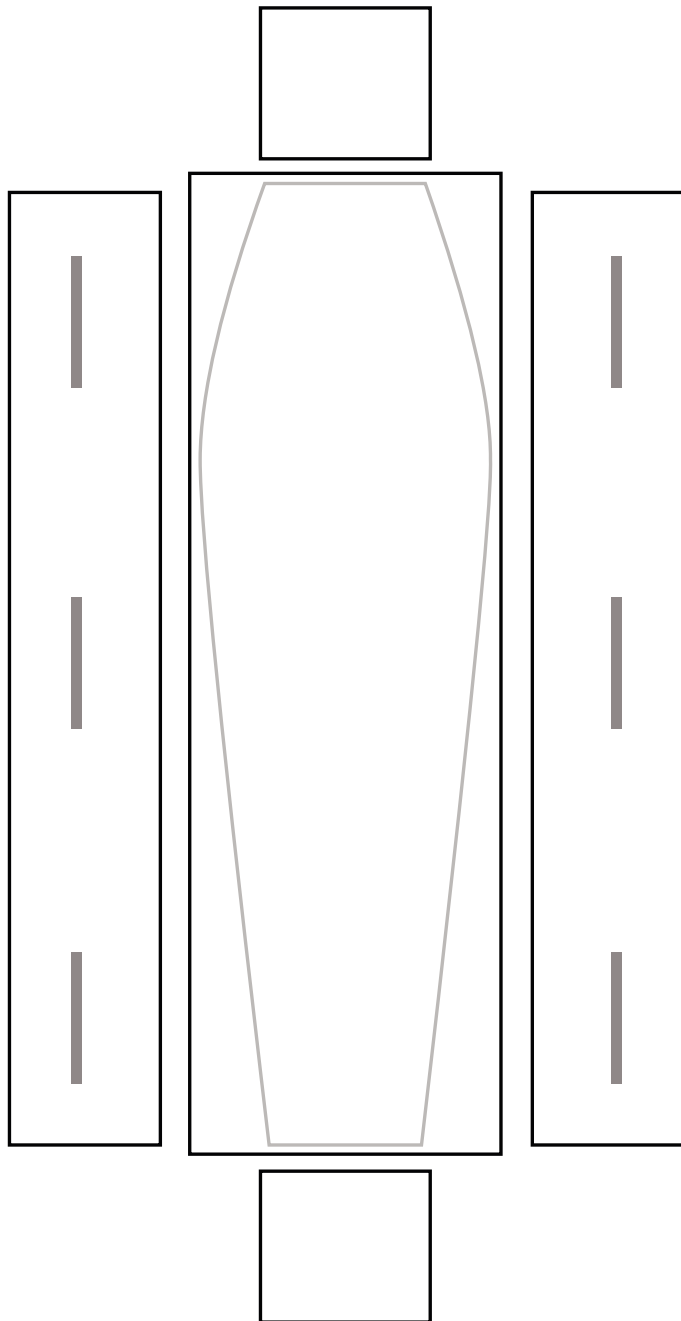

Focus:

When choosing the image make sure the central element of the picture is as centered and focussed. If the part of an image is too large or positioned on the edge of the picture, it may be difficult to incorporate into the design.

Design Elements:

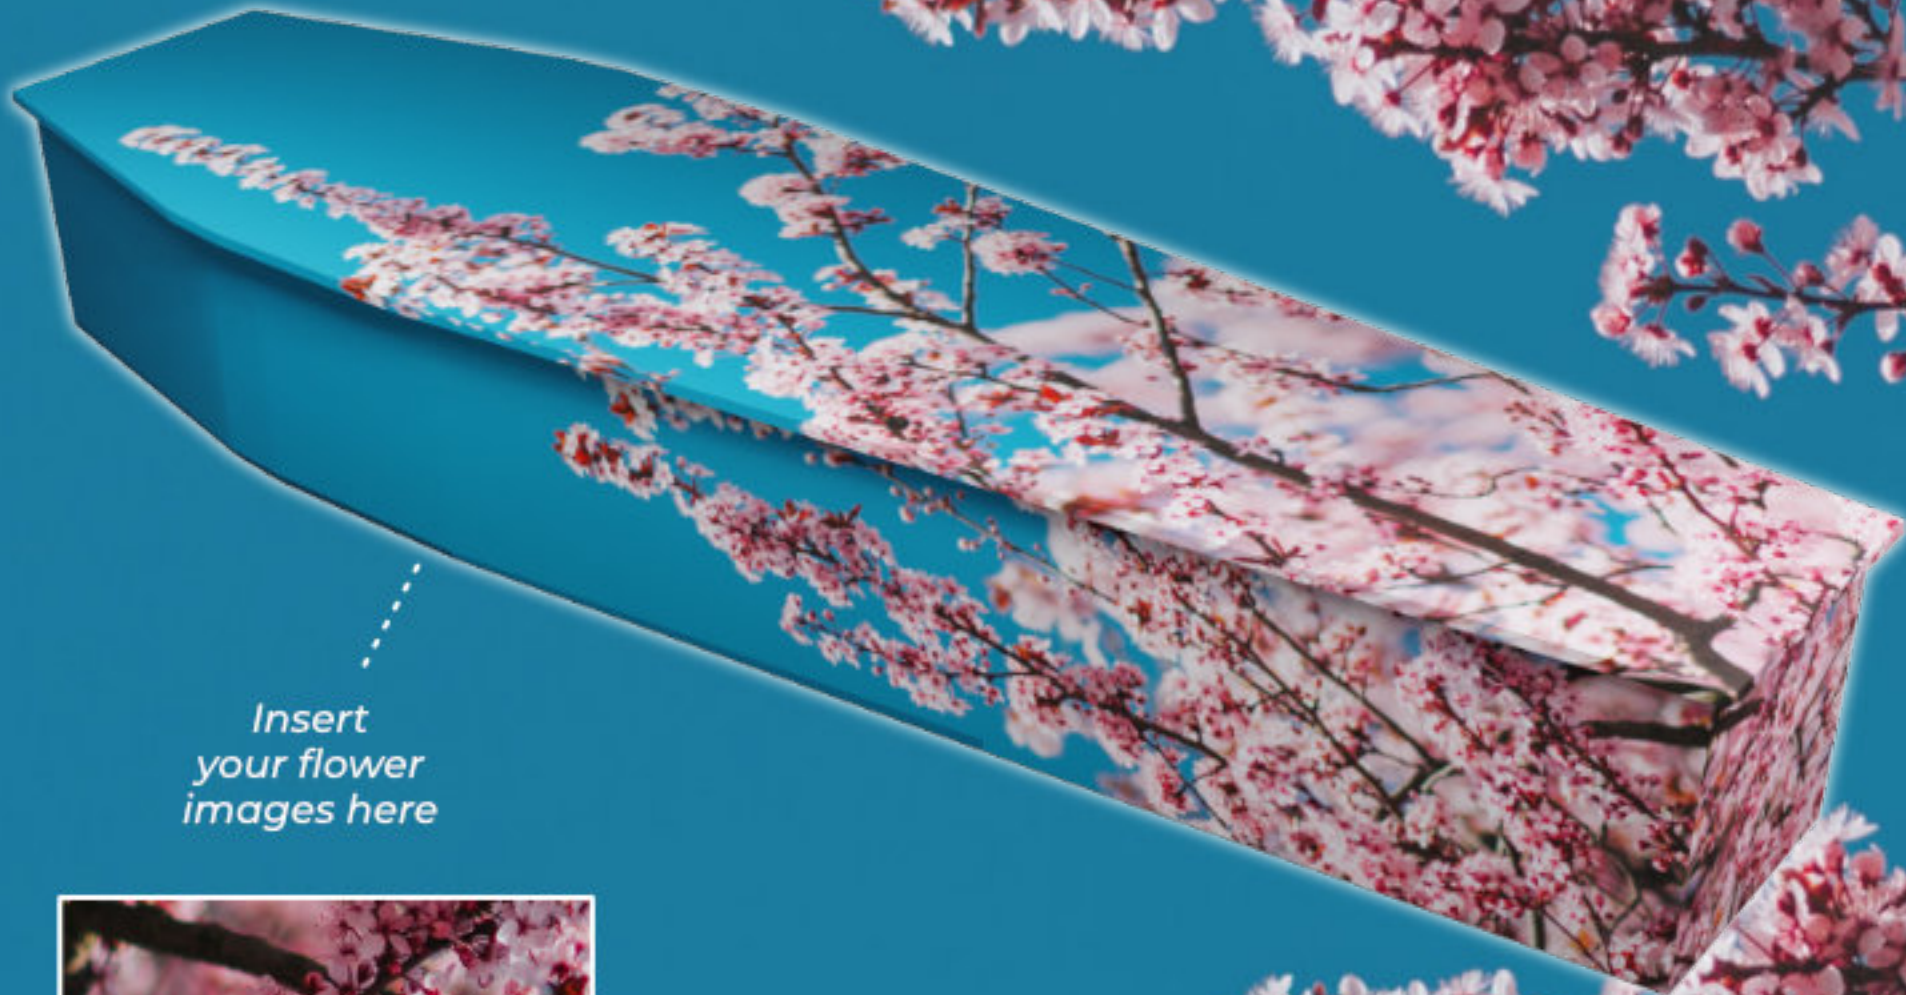

When customising a Themes of Life™ coffin, images can be inserted onto the coffin lid, head end and foot end.

Images on the coffin sides can either be a full panel image or images inserted between handle positions.
